

Smart Growth Planning Committee Receives FIRST DRAFT of Future Land Use Map

Thursday, August 19, 2004 – After working for more than 4-years, the FIRST Draft of the Future Land Use Map was presented to the Smart Growth Plan Committee this evening along with the Draft Future Land Use Chapter and results of the July Cognitive Mapping Exercise.

The theme of the plan is creating a Healthy and Active Evansville! Opportunities for walking, cycling, and mixed-use areas are important plan themes.

All draft information is available for review on the project web site.

The Smart Growth Plan Committee will be reviewing this information carefully over the next several months. Several immediate changes were identified on the FIRST DRAFT of the Future Land Use Map. A SECOND DRAFT will be presented to the Smart Growth Plan Committee in September.

The next Smart Growth Meeting with OMNNI will be on October 21st.
