Hydrant and Main Flushing Fall 2018

The Evansville Water & Light will be flushing water mains starting on Monday, October 1st through Friday, October 12th. Flushing is done to check hydrants and remove any sediments from the water mains. You may experience some dark water while flushing the mains in your neighborhood. To prevent this, it is best not to run water while we are flushing in your area. After the flushing has been completed, and if you experience discolored water, turn on your cold water taps until the water runs clear. Thank you for your consideration in our efforts to provide the best service to our community.
