

## BadgerCare Plus Community Outreach

Kids need comprehensive preventative health care so they can grow up to be healthy and strong.

Since February 1, 2008, all kids in Wisconsin who do not have access to health insurance have been able to get the health care they need at a price families can afford through BadgerCare Plus. This new program is a consolidation of the Wisconsin Medicaid, BadgerCare, and Healthy Start programs and is for children under 19 years of age, pregnant women, and the parents and caretakers of children. Families at higher income levels will pay premiums and co-payments for certain services.

Assistance to complete online BadgerCare Plus applications will be provided throughout Rock County at various community application sites starting June 23<sup>rd</sup>. For more information, contact the BadgerCare Plus Outreach Coordinator at 741-3517.
