SIGN-2020-01

6. Description of signage. For each proposed sign, please provide the following information as applicable.

Dimensions:	14'x2'
Materials:	plastic
Illumination, if any:	none
Location on the property:	Above the storefront window at 19 E main St
Height above grade:	13'
For wall signs, the area of the building's face to which the sign will be attached:	_1050_ square feet

7. Type of signs. For each of the sign types below, indicate the number and total area of existing and proposed signage.

		<u>Existing Signs</u>		<u>Proposed Signs</u>	
		Number	Total Area (square feet)	Number	Total Area (square feet)
Sign Type	Description				
Wall sign	A wall sign is affixed to or painted on a wall surface and may not extend more than 16" from the face of the wall	0	0	1	28
Ground sign	A sign where the bottom of the sign is generally in contact with or in close proximity to the ground				
Pole sign	A sign that is principally supported by one or more columns or poles				
Awning sign	A sign placed on the vertical flap of an awning which is defined as a retractable, roof-like structure that his mounted on the face of a building and is constructed on non-rigid materials (like canvas)				
Canopy / marquee sign	A sign placed on the vertical flap of a canopy or marquee which is defined as a permanent, roof-like structure that is mounted on the face of a building and is constructed of a durable, rigid material such as metal, plastic, or glass				
Portable sign	A sign that is not permanently attached to the ground and is designed to be easily moved from one location to another. Examples are sandwich boards or reader boards with supports or wheels.				
Projecting sign	A sign that is attached to a building and which is perpendicular to it's face			1	4
Other	Any type of signage that does not fall into one of the above categories

Replace existing modern replacement windows

SECTION	PROPOSED WORK SUMMARY
3	3A For each Item that was checked in the left-hand column of Section 2, provide a more detailed description of the work proposed to be done:
	COMPLETE TEAR-OFF AND REPLACEMENT OF ASPHALT SHINGLES; INCLUDES INSTALLATION OF ICE DAM SHIELD. IF LEAKAGE IN ^{NE} SE CORNER HAS CAUSED ROTTING OF SHEATHING OR STRUCTURE, THEN (-100% BASE) REPAIR OF STRUCTURE WILL BE NEEDED. ANY TRIM REPLACEMENT WILL BE WITH IDENTICAL MATERIAL
	Pursuant to State Statute 62.23(7)(em)(2m) replacement materials shall be similar in design color, scale, architectural appearance, and other visual qualities. Please help the HPC or city staff better understand your project proposal by providing the following information:
	3B Will your project include replacing materials original to your historic building, including: siding, windows, trim, doors, etc?
	ONLY IF REQUIRED DUE TO ROTTING
	3C If so, summarize any attempts to repair the original materials and attach a contractor estimate that demonstrates the un-reparability of original materials:
	IT WON'T BE KNOWN IF TRIM NEEDS REPAIR UNTIL ROOF IS REMOVED ANY TRIM/FASCIA/SOFFIT REPLACEMENT WILL BE WITH IDENTICAL MATERIALS (WE HAVE SOURCES FOR THE BRADBARD AND TRIM; FASCIA WILL BE REPLACED WITH WOOD, IF REQUIRED)

SECTION	SUPPLEMENTAL QUESTIONS
4	4A Will the proposed work alter any of the distinctive features or historic architectural details of the property?
	NO
	4B Please briefly describe how the proposed work will conform to the Standards and Guidelines of the Secretary of the U. S. Dept. of the Interior for the Rehabilitation of Historic Properties (available at www.nps.gov/tps/standards/rehabilitation.htm and at City Hall.)
	Adherence to these standards and guidelines will help assure your property's eligibility for potential State and Federal tax credits.
	WE ARE REPLACING EXISTING ARCHITECTURAL ASPHALT SHINGLES WITH THE SAME TYPE OF SHINGLES. THE PROJECT MAY REQUIRE STRUCTURAL REPAIRS, WHICH WILL BE MADE WITH MATERIALS IDENTICAL TO THOSE ON THE HOUSE. IN NO CASE WILL ALUMINUM OR VINYL TRIM/FASCIA/SOFFIT BE PUT ON THE HOUSE.

5-1 Roof

HPC-2020-07

Roof

NE Corner:

Note that an ice dam during the winter of 2018-2019 caused icicles to form between the beadboards on the soffit. These icicles "popped" the paint covering the beadboard. The contractor has probably found rot under the shingles on this corner and we assume that the sheathing will need to be replaced. It cannot be known until the sheathing is removed whether or not repair/replacement of the corner structure will be needed. Based on the visible damage, we hope that the soffit and fascia may only require paint.

Existing Windows (to be replaced)

All but one of the windows look like this.

Closeups of the window

Note the modern lock and lack of divided light (the verticals are simply a pop-in piece of wood):

Also note the obviously modern double-pane glass:

The other window is from a different maker

This window is entire of metal without any attempt at dividing the upper light.

Closeup, showing the modern divided window pane.

SECTION	SUPPLEMENTAL ATTACHMENTS
5	Use this sheet to attach any additional items. Each attachment should be marked with an exhibit number.

Clad Color Options

MARVIN 

Simulated Divided Lite with Spacer Bar (SDLS)

Paired with SDL bars on the exterior of the glass, a spacer bar is installed between the glass, creating an even closer match to the Authentic Divided Lite look.

Wineberry

A high-quality window deserves a dependable finish. Our low maintenance clad-wood products feature an extruded aluminum exterior finished in commercial-grade paint for superior resistance

Patterns

Marvin's custom capabilities allow us to create almost any divided lite pattern you can dream up, with combinations of widths, unique profiles, rectangular or radius cuts and more. Choose from an existing lite cut, specify custom divided lites according to a new

5 Maple Street

5. Design review.

Is the proposed sign located within a historic preservation district and/or the central business district (B-2)?
Is the proposed sign a sandwich board sign?

<input checked="checked" type="checkbox"/> Yes	<input type="checkbox"/> No
<input type="checkbox"/> Yes	<input type="checkbox"/> No

If you answered yes to both of the questions, provide a sketch of the proposed sign that shows lettering, logos, and other graphics and the overall color scheme. You can use the space below or attach a drawing to this application.

The Evansville Historic Preservation Commission must review and approve the design of the sign, before the application is reviewed to ensure it meets other standards contained in the city's sign code.

6. Description of signage. For each proposed sign, please provide the following information as applicable.

Dimensions:	
Materials:	plastic
Illumination, if any:	none
Location on the property:	Above the storefront window/door at 5 Maple St.
Height above grade:	8'
For wall signs, the area of the building's face to which the sign will be attached:	_3745_ square feet

7. Type of signs. For each of the sign types below, indicate the number and total area of existing and proposed signage.

Sign Type Description		<i>Existing Signs</i>		<i>Proposed Signs</i>	
		Number	Total Area (square feet)	Number	Total Area (square feet)
Wall sign	A wall sign is affixed to or painted on a wall surface and may not extend more than 16" from the face of the wall	0	0	1	
Ground sign	A sign where the bottom of the sign is generally in contact with or in close proximity to the ground				
Pole sign	A sign that is principally supported by one or more columns or poles				
Awning sign	A sign placed on the vertical flap of an awning which is defined as a retractable, roof-like structure that his mounted on the face of a building and is constructed on non-rigid materials (like canvas)				
Canopy / marquee sign	A sign placed on the vertical flap of a canopy or marquee which is defined as a permanent, roof-like structure that is mounted on the face of a building and is constructed of a durable, rigid material such as metal, plastic, or glass				
Portable sign	A sign that is not permanently attached to the ground and is designed to be easily moved from one location to another. Examples are sandwich boards or reader boards with supports or wheels.				
Projecting sign	A sign that is attached to a building and which is perpendicular to it's face				
Other	Any type of signage that does not fall into one of the above categories

APPLICATION FOR CERTIFICATE OF APPROPRIATENESS

CITY OF EVANSVILLE HISTORIC PRESERVATION COMMISSION
31 S. Madison St, PO Box 529, Evansville, WI 53536

\$0.00
Application
Fee

This is a request for issuance of a Certificate of Appropriateness (COA) by the Historic Preservation Commission (HPC) for work proposed to be performed on the exterior of a structure located in any Historic District or designated by the State or City as a historic building or historic site. Complete all sections of this form – it is used to determine if the proposal should be reviewed by staff or the HPC. **Submit questions or completed applications to address above, or via email to the Community Development Director, Jason Sergeant, at: (608)-882-2285 or jason.sergeant@ci.evansville.wi.gov.**

SECTION	APPLICANT and/or OWNER INFORMATION	HISTORIC PROPERTY INFORMATION
1	Applicant Name:	Historic Property Address:
	<u>JOHN Willoughby</u>	<u>145 Highland St.</u>
	Applicant Mailing Address:	Evansville, WI 53536
	<u>15 Garfield Ave.</u>	The following information is available on the property's tax bill:
	<u>Evansville, WI 53536</u>	Parcel Tax ID Number: 222 <u>023620</u>
	Applicant Phone:	Parcel Number: 6-27- <u>418</u>
	Applicant Email:	The following information is available by searching the property address at www.wisconsinhistory.org:
	If different from above, please provide:	Historic Property Name:
	Owner Name:	
	Owner Address:	
	Owner Phone:	AHI Number: <u>84827</u>
	Owner Email:	Contributing: Y or N

INSTRUCTIONS: Complete this entire form and submit by mail or email the following:

1. Application Form with attachments (as outlined in Section 3C and 5):

- o Clear photo(s) of every portion of the property that will be affected by the work
- o Historic photograph(s) (if available)
- o Exterior elevations or sketches of existing conditions and proposed work
- o Samples or specifications of proposed materials
- o If Section 3B applies, evidence of un-reparability
- o Site plan (if applicable)
- o Print or PDF of State of WI historic property information, available by searching the property address at www.wisconsinhistory.org

2. Building Permit (work cannot begin until Building Inspector has approved a Building Permit)

All applications are to be submitted and deemed complete at least 10 days prior to the HPC meeting. HPC typically meets on the third Wednesday of each month at 6:00pm in City Hall. Applicants are encouraged to appear in person.

Thank you for helping to value and protect "one of the most intact nineteenth century townscapes in southern Wisconsin" and "the finest collection of 1840s - 1915 architecture of any small town in Wisconsin" – Wisconsin State Historic Society

SECTION	PROPOSED WORK SUMMARY
3	3A For each Item that was checked in the left-hand column of Section 2, provide a more detailed description of the work proposed to be done: <i>Replace porch spindles</i>
	Pursuant to State Statute 62.23(7)(em)(2m) replacement materials shall be similar in design color, scale, architectural appearance, and other visual qualities. Please help the HPC or city staff better understand your project proposal by providing the following information:
	3B Will your project include replacing materials original to your historic building, including: siding, windows, trim, doors, etc? <i>yes</i>
	3C If so, summarize any attempts to repair the original materials and attach a contractor estimate that demonstrates the un-reparability of original materials: <i>original (?) spindles are rotten and need replacement.</i>

SECTION	SUPPLEMENTAL QUESTIONS
4	4A Will the proposed work alter any of the distinctive features or historic architectural details of the property? <i>No.</i>
	4B Please briefly describe how the proposed work will conform to the Standards and Guidelines of the Secretary of the U. S. Dept. of the Interior for the Rehabilitation of Historic Properties (available at www.nps.gov/tps/standards/rehabilitation.htm and at City Hall.) Adherence to these standards and guidelines will help assure your property's eligibility for potential State and Federal tax credits.
	<i>The original spindles will be replaced with modern copies.</i>

SECTION	REQUIRED ATTACHMENTS
5	<p>Please attach the following required items using the space below or additional sheets as necessary, Each attachment should be marked with an exhibit number:</p> <ol style="list-style-type: none"> 1. Clear photo(s) of every portion of the property affected by the work 2. Historic photograph (if available) 3. Exterior elevations or sketches of existing conditions and proposed work 4. Samples or specifications of proposed materials 5. If Section 3B applies, evidence of un-reparability 6. Site plan (if applicable) 7. Print or PDF of State of WI historic property information, available by searching the property address at www.wisconsinhistory.org 8. Additional attachments that may assist in understanding the proposed work

EXHIBIT: A C. 1970 photo

SECTION	SUPPLEMENTAL ATTACHMENTS
5	Use this sheet to attach any additional items. Each attachment should be marked with an exhibit number.

To: "jason.sergeant@ci.evansville.wi.gov" <jason.sergeant@ci.evansville.wi.gov>

Regarding the porch at 145 Highland St.:

The website for the spindles is: vintagewoodworks.com. Under the heading "shop all spindles" we are looking at the traditional turned cedar 2" by 20" spindles or balusters. Hope this gives you an idea of what we are thinking of using on the porch. John
