TAXES			5.63
TOTAL CURRENT CHARGES			197.06
TOTAL AMOUNT DUE			197.06

This bill represents a residential customer with optional Time of Day (TOD) tariff. This option typically works that for 12 hours during the day you are on the on-peak rate and the remaining 12 hours you are on the off-peak rate. Those who can manage to reduce their over all consumption during the day can save money and save the environment by reducing the amount of energy that is needed during the day resulting in wasted energy in the evening. This also saves the utility money in not having to increase capacity or simply maximize existing infrastructure.

City staff can review with you your utility history to determine if the TOD tariff is a better option. Call 608-882-2266.

CHOOSE RENEWABLE FOR YOUR COMMUNITY

It's just \$3 more to power up a portion of your home with a block of renewable energy. And, it only takes two or three blocks to run the average home every month. It adds up to a smaller carbon footprint for you and a cleaner world for your community. All for only \$3.

Power Cost Adjustment is .0033

MORE CASH IN YOUR POCKET.

As your locally owned, not-for-profit utility, our focus is on service and people, not profits. Together through WPPI Energy, we work with 50 other locally owned utilities to help us hold the line on costs, keeping our rates as affordable as possible. We also offer many programs to help you lower your energy usage.

We're focused on customers, not shareholders, and all decisions about the utility are always made locally. Find out more at whypublicpower.org.

Diggers Hotline: 1-800-242-8511 or simply 811

DUE DATE

Bills are issued on the 8th day of every month. Late charges shall be applied no sooner than 20 days after the date of issuance of the bill.

POWER COST ADJUSTMENT

This adjustment reflects the variance in the cost of purchased power from the amount included for these costs in our basic electric rate.

METER READING

Meters are read monthly. If the utility is unable to read the meter, usage will be estimated based on historical usage and will be identified with an "ER" following the applicable usage as listed in the Current Meter Information section above. If you have questions concerning estimated reads, please contact our office.
