## **Aquatics Design:**

Water Technology Inc.

## **Athletic Field Specialists:**

**Rettler Corporation** 

#### **General Contractor:**

Corporate Contractors Inc (CCI)

Construction Start:

8/30/2022

# Work Completed Current Week:

- Finish grade 10' walks on East half of site
- Prep area between ballfields for concrete paving. Construction team identified an issue with the cross slope percentage on a large portion of the paving. CCI awaiting feedback from MSA review
- Prep and pour 5' section of concrete behind both backstops for an area to work off when pouring remaining paving between ball fields
- Continued/finished stretching fence on backstops
- Completed tie in of 6" DI water off windmill rige
- There was already a cross installed @ tie in location, so no shutdown was needed
- 6" DI watermain was installed, along with cooresponding hydrant and valve
- Dug bath house footings
- Formed and poured South half of bath house footings
- First section of lap pool walls poured, North, West and South walls included in pour (shot creet)
- Wire pulled to light pole locations on East side
- CCI has provided a price to raise the portion of sidewalk that ties in @ porter road, due to an elevation issue brought to attention by the construction team. Awaiting approval to proceed
- Material for dugouts was delivered this week to site

## Work Scheduled Next Week:

- Begin pouring 10' walks on East side of the park next Thursday
- Finish grading area between ball fields for paving if decision is made on sidewalk cross slope solution
- Sidewalk section to be raised and culvert installed, if price is approved by
- Remaining bath house footings to be poured on Monday 4/24
- Begin installing foam, vapor barrier and rebar in equipment building lower level next week - MSA to be notified before pour to inspect
- Second half of lap pool walls being poured on Tuesday 4/25
